WHAT TO CONFIRM BEFORE ORDERING

- Confirm the source: Griffonia simplicifolia extract and synthetic 5-HTP are different supply chains and different documentation.
- Ask for the assay and the related-substance profile; the botanical source does not replace the certificate.

- 5-HTP is light- and oxygen-sensitive; the pack and the process exposure belong in the specification.
- Do not use the page as a label or a claim: the finished product's status is a separate legal question.

> **Indicative document.** This sheet describes the grade we can quote; it is not a batch COA and does not confirm a result for a specific lot. Final specification, contaminant limits and documentation are agreed in writing before the order. The form, hydrate state, ligand ratio and method are release parameters, not marketing descriptions.

HOW TO REQUEST THIS GRADE

01 · BRIEF

Send the target specification, quantity, dosage form and destination market.

02 · COUNTER-SPEC

We confirm what can be matched and the documents available for the grade.

03 · SAMPLE & QUOTE

A sample with its own COA, followed by packing, lead time and terms in writing.
