WHAT TO CONFIRM BEFORE ORDERING

- Name the source: corn peptides and soy peptides are different materials and different labels.
- Ask for the protein method and the peptide content; the two are not interchangeable.
- The material is hygroscopic and has a mild cereal odour; the pack and the storage condition belong in the specification.

- Do not use the page as a label or a claim: the finished product's status is a separate legal question.

> **Indicative document.** This sheet describes the grade we can quote; it is not a batch COA and does not confirm a result for a specific lot. Final specification, contaminant limits and documentation are agreed in writing before the order. The form, hydrate state, ligand ratio and method are release parameters, not marketing descriptions.

HOW TO REQUEST THIS GRADE

01 · BRIEF

Send the target specification, quantity, dosage form and destination market.

02 · COUNTER-SPEC

We confirm what can be matched and the documents available for the grade.

03 · SAMPLE & QUOTE

A sample with its own COA, followed by packing, lead time and terms in writing.
