WHAT TO CONFIRM BEFORE ORDERING

- Name the salt: lithium orotate and lithium carbonate are different label ingredients with different lithium figures.
- Ask for the lithium figure and the assay; the salt name does not state the dose.
- Lithium is regulated differently from a food ingredient in many markets; confirm the route before quoting.
- Do not use the page as a label or a claim: the finished product's status is a separate legal question.

Indicative document. This sheet describes the grade we can quote; it is not a batch COA and does not confirm a result for a specific lot. Final specification, contaminant limits and documentation are agreed in writing before the order. The form, hydrate state, ligand ratio and method are release parameters, not marketing descriptions.

HOW TO REQUEST THIS GRADE

01 · BRIEF

Send the target specification, quantity, dosage form and destination market.

02 · COUNTER-SPEC

We confirm what can be matched and the documents available for the grade.

03 · SAMPLE & QUOTE

A sample with its own COA, followed by packing, lead time and terms in writing.
