# Pumpkin Seed Oil

*— · CAS 8016-49-9 · Cold-pressed pumpkin seed oil*

**INDICATIVE SPECIFICATION — CONFIRMED IN WRITING AT QUOTATION**

| CHEMICAL FORM | FORMULA | CAS | PRIMARY ASSAY |
|---|---|---|---|
| Cold-pressed pumpkin seed oil | — | 8016-49-9 | 45.0–55.0% (GC) |
| **METHOD** | **MINIMUM ORDER** | **LEAD TIME** | **STANDARD PACK** |
| GC fatty acid profile and wet chemistry | 1 kg | 1–7 days | 1 kg amber bottle |

## SPECIFICATION

| PARAMETER | SPECIFICATION | METHOD / NOTE |
|---|---|---|
| Linoleic acid (C18:2) | 45.0–55.0% (GC) | Specification |
| Oleic acid (C18:1) | 25.0–35.0% | Specification |
| Free fatty acid | ≤0.50% | Specification |
| Peroxide value | ≤5.0 meq $O_2$/kg | Specification |
| Appearance | Clear to slightly hazy oil | Specification |
| Identification | Fatty acid profile conform | Specification |
| Moisture | ≤0.1% | Specification |
| Heavy metals | Pb ≤3 · As ≤2 · Cd ≤1 · Hg ≤0.1 mg/kg | Specification |
| Microbiology | APC ≤1,000 cfu/g · yeast and mould ≤100 cfu/g · E. coli and Salmonella absent | Specification |
| Marker set | Linoleic acid 45.0–55.0% (GC) | Identity / ratio |
| Appearance | Dark green to brownish-green oil | Visual |
| Solubility | Insoluble in water; soluble in fats and in organic solvents. | Matrix dependent |
| Standard packaging | 1 kg amber bottle · 25 kg HDPE drum | Food-grade liner |

## APPLICATIONS

- Softgel capsules
- Oil-based blends

## AVAILABLE FORMS

- Oil
- Powder on carrier on request

## WHAT TO CONFIRM BEFORE ORDERING

- Name the grade: cold-pressed and refined pumpkin seed oils are different specifications.
- Ask for the fatty acid profile, the free fatty acid and the peroxide value; the three are not interchangeable.

- The oil is light- and heat-sensitive; the pack and the storage condition belong in the specification.
- Do not use the page as a label or a claim: the finished product's status is a separate legal question.

> **Indicative document.** This sheet describes the grade we can quote; it is not a batch COA and does not confirm a result for a specific lot. Final specification, contaminant limits and documentation are agreed in writing before the order. The form, hydrate state, ligand ratio and method are release parameters, not marketing descriptions.

## DOCUMENTATION RELEASED WITH EACH LOT

| DOCUMENT | CONTENT | SCOPE |
|---|---|---|
| Certificate of analysis | Assay, identity, physical parameters, contaminant panel and the release decision for the lot. | Batch-specific |
| Technical data sheet | Form, hydrate state, CAS, specification ranges, solubility, bulk density, storage and packing. | Product-level |
| Safety data sheet | Sixteen sections covering hazards, handling, storage, transport and emergency response. | Grade-specific |
| Allergen and GMO statements | Major allergens, gluten, animal-derived inputs and GMO status. | Batch-specific |
| Origin and traceability record | Manufacturing site and the link between the lot and the retained sample. | Batch-specific |
| Residual-solvent statement | The crystallisation system and the solvent class, where applicable. | Batch-specific |

## HOW TO REQUEST THIS GRADE

01 · BRIEF

Send the target specification, quantity, dosage form and destination market.

02 · COUNTER-SPEC

We confirm what can be matched and the documents available for the grade.

03 · SAMPLE & QUOTE

A sample with its own COA, followed by packing, lead time and terms in writing.

**No claim is made here.** This sheet does not claim a therapeutic effect, a product certification or a regulatory approval. Health claims belong to the brand that makes them and to the market that authorises them.
